

20 November 2020

Asalamu Alaykum

Respected Parents and Guardians

May this update find you well on this auspicious day of Jumuah! May Allah SWT grant all duahs made for & by us & shower us with His Mercy, Protection & Blessings. Ameen!

Alhumdulillah, the Premier has announced in his briefing today that schools are to reopen on Monday 23rd November 2020. We still need to take due care & continue to adhere to any Government & school requests/ protocols for our safety from this virus.

I'd like to thank my staff for working diligently these past two days to prepare for our students. A special thank you to all our parents who acted promptly to any requests made during this critical week.

Any families who were asked by SA Health to quarantine should complete the 14 days & adhere to any governing regulations. Could you please inform the College so that we can update our attendance records. If any parent intends to keep children home as a cautionary measure you will need to email me at principal@gardencollege.sa.edu.au to notify me of your intent.

A gentle reminder that all parents should drop your primary kids off by 9:00 am (not prior). We request that you always pick them up promptly at 3:40 pm & remain in your cars. Please display your family placard clearly in the front windscreen so that we can get your children to you as quickly as possible.

Should you need to come into the office - your temperature will be taken, a mask will be given to you along with hand sanitizer. Please cooperate with staff.

School buses will operate as normal. Please inform the driver if your child will be absent.

We thank Allah SWT for keeping our school community safe & we continue to pray for those in the Parafield Cluster for a speedy recovery, Ameen!

I look forward to seeing all my staff & students back on Monday.

Wasalam

Dr Ahdielah Edries
