Asalamu Alaykum

Respected Parents and Guardians

Re: Health Alert in Northern Suburbs

I am writing this urgent notice to you in response to the information released by the SA Department of Health with regard to the latest positive Covid-19 cases.

I humbly appeal to you if you have visited the below locations please inform the College immediately.

Location	Suburb	Date	Time
Parafiled Plaza - Supermarket	Parafield, SA	Thursday 12 November	10:30am-11:30am
Lyell McEwin Hospital – Emergency Department	Elizabeth Vale, SA	Friday 13 November – Saturday 14 November	5.30 pm – 4.00 am

It is incumbent on you to seek immediate Covid-19 testing (even if you do not have any symptoms) and to self-isolate (along with close family members including your children) for 14 days from the day that you were at the location. It is imperative that you do not take any unnecessary risks; or endanger others. The College will support any families who need to self-isolate as best as we can by preparing work packages/online learning for your children.

The most important thing to us is the safety of our whole school community (students, staff, and parents) as well as the wider Australian Community. Our school will continue to uphold safe practices and procedures to ensure the safety and well-being of all our stakeholders. May Allah SWT protect us from this virus and keep us safe, In Sha Allah Ameen!

I thank you all for your continued support. Please remember to keep your children home if they are unwell, have a cough, cold or fever. If students experience any of the above flu-like symptoms we will contact you to pick them up immediately.

Please ensure that you respond to our text messages and calls from school (08 8285 3975 – school landline number | 0427 836 587 – number we use to text message) in the event that we need to look at a possible closure (just as a precaution) over the coming days.

Jazak-Allah Khairun,

Dr Ahdielah Edries
Principal
Garden College
